SUBJECT: Professional Development Stipend Request — AI Training Membership

Hi [Manager Name],

I'd like to use my professional development stipend for an AI training membership through The collabAI Company.

The program includes a structured curriculum on AI implementation for professionals, hands-on workshops, a peer learning community, and a skills development tracker with self-assessments. New trainings are added monthly as the field evolves.

This is directly applicable to my current role — AI is becoming essential across every function, and this membership would help me build practical skills I can apply to our team's work immediately.

The investment is \$597 per year (or \$197 per quarter). I've attached the qualification details for your review.

I'd love to discuss further if helpful. I think this could be valuable for the broader team as well.

Thank you,
[Your Name]
